

## ADDIE Alternatives

### 1. Dick and Carey Model

This short post on the Penn State University website will give you a good overview of [Dick and Carey Model](#) (1996)—a procedural system including ten major process components (nine basic steps in an iterative cycle and a culminating evaluation of the effectiveness of the instruction).

### 2. Kemp Design Model

Here's a good article on the [Kemp Model](#) in Educational Technology.

### 3. Instructional Design Central

A great website for an extensive list of instructional design models is [Instructional Design Central](#). They offer a large library of instructional design templates and other useful resource lists, articles, and blogs. Consider subscribing to their newsletter.
